

Which OTR tyres should you use for specific machines?

Machines in the OTR or EM (Earthmover) categories have a unique code for their tyres. We are pleased to give you an overview, so you know which OTR tyres you should be using on specific machines.

C = Compactor Roller		E = Earthmoving, or dumpers/transporters		G = Grader		L = Loader, or wheel loader/dozer	
Code	Profile	Code	Profile	Code	Profile	Code	Profile
C1	Patternless tyre	E2	Traction	G2	Traction	L2	Traction
		E3	Rock, normal pattern	G3	Rock, normal pattern	L3	Rock, normal pattern
		E4	Rock, deep pattern	G4	Rock, deep pattern	L4	Rock, deep pattern
		E7	Flotation	G5	Rock, extra deep pattern	L5	Rock, extra deep pattern
						L3S	Patternless
						L4S	Patternless, thick tread
						L5S	Patternless, extra thick tread

Pattern overview

Did you know that the patterns on our in-house brands are comparable with those on A brands? We have provided an overview of this comparison.
